

Hypertension Process Metrics Could Include:

- Adherence to protocols for acute management
- Appropriateness of response to early warning criteria
- Documentation of education of pregnant and postpartum women about symptoms of preeclampsia for women at risk
- Occurrence of post severe maternal morbidity (SMM) event debrief and outcomes
- Timeliness of medication administration
- Timeliness of triage and evaluation

Note: These metrics are provided as an example and are not meant to serve as a comprehensive listing. Metrics for Reporting and Systems Learning can be modified to meet the particular needs of an institution.
