

How Does AIM Work?

AIM provides implementation support and data tracking for open access Patient Safety Bundles and Tools. Enrollment is based on voluntary participation and has a rolling onboarding process.

Connect with your state or hospital system coordinator

Your state or hospital System Lead Coordinator will facilitate your hospital's partnership in the AIM program.

Take a short Maternal Safety Needs Assessment Survey

You'll take a short survey and your AIM Lead Coordinator will work with you to identify areas of improvement and current QI initiatives.

Learn about AIM-supported Patient Safety Bundles and Tools that fit your needs

Your team will be introduced to AIM-supported Patient Safety Bundles and Tools that can be tailored to your needs to improve QI efforts.

AIM-supported Patient Safety Bundles include:

[Obstetric Hemorrhage](#)

[Severe Hypertension in Pregnancy](#)

[Maternal Prevention of VTE](#)

[Safe Reduction of Primary Cesarean Birth](#)

Receive Bundle implementation support

Your team will enjoy facilitated peer-to-peer engagement opportunities with other AIM partners and on-going technical support and resources to make implementation of these bundles accessible and effective.

Track and benchmark your progress through the AIM Data Center

You'll be able to track your success on improving maternal outcomes through AIM's national data center.

ALLIANCE FOR INNOVATION
ON MATERNAL HEALTH **AIM**

Contact us to see how you and your hospital can get involved.
safehealthcareforeverywoman.org/aim

AIM is funded by Grant #UC4MC28042 through a cooperative agreement with the Maternal and Child Health Bureau (MCHB) and Health Resources & Services Administration (HRSA).
