Collaborative Care Models for Perinatal Mental Health: A Systems Approach to Adopting Best Practices

Friday, May 12, 2017
12:00 pm Eastern Time

Click Here to Register for Free

Objectives:

- Discuss common barriers to mental health care and provide an overview of frequent issues in the current care models for maternal and perinatal mental health.
- Define the collaborative care model and explain characteristics and methodologies of successful approaches to improving perinatal and maternal mental health care on an institutional level.
- Provide insight on the significance of cultivating a culture of teamwork and promoting collaboration between disciplines throughout maternal and perinatal care.

An open Q&A session with the speakers will follow the presentation!

Speakers:

Nancy Grote, PhD, MSW

Principal Investigator, MOMCare Program and Research Associate Professor, University of Washington School of Social Work

Emily Miller, MD, MPH

Assistant Professor, Obstetrics and Gynecology-Maternal Fetal Medicine and Psychiatry and Behavioral Sciences, Northwestern University
