

HALF OF MATERNAL DEATHS ARE PREVENTABLE. SAVE LIVES BY TEAMING UP WITH AIM.

AIM is an open access collaborative program dedicated to saving women's lives. AIM provides hospitals and states with the tools and support they need to prepare for and respond to obstetric emergencies.

We can reduce maternal mortality and morbidity if we work together and use the evidence-based knowledge, timely data, and reliable resources that AIM provides.

BENEFIT BY TEAMING UP WITH AIM

When you team up with AIM you will receive Patient Safety Bundle implementation support, training, peer-to-peer engagement opportunities, and access to AIM's national data center to track your success

LET'S DO THIS TOGETHER!

When people committed to solving problems come together, something wonderful happens. Contact us to learn how to get involved with AIM and save lives in your hospital or state.

AIM-SUPPORTED PATIENT SAFETY BUNDLES INCLUDE:

- *Maternal VTE Prevention*
- *Postpartum Care Basics for Maternal Safety From Birth to the Comprehensive Postpartum Visit*
- *Postpartum Care Basics for Maternal Safety Transition From Maternity to Well-Woman Care*
