

SAFETY ACTION SERIES

Assessing and Minimizing Risk of Infection After Gynecologic Surgery

Tuesday, October 16, 2018

12:30 p.m. Eastern Time

[Click Here to Register for Free](#)

Objectives:

- Discuss risk factors for infection after gynecologic surgery
- Highlight strategies for controlling alterable risk and managing unalterable risk
- Provide real world examples of how teams and systems can lower their infection rate

An open Q&A session with the speakers will follow the presentation!

Speakers:

Oluwatosin Goje, MD, MSCR

Reproductive Infection Diseases Program, Cleveland Clinic

Linda R. Greene, RN, MPS, CIC

Infection Prevention Manager,
University of Rochester,
Highland Hospital
